6.0 Censorship and Adult Materials

VIKING Broadband believes in freedom of expression and the right of individuals to decide for themselves what they want to see and listen to. We do not believe it is the place of an ISP to censor or regulate the Internet. However, users must not use VIKING Broadband to transmit or post any information or image that is criminally obscene or otherwise prohibited under any applicable law. VIKING Broadband assumes NO responsibility for Internet content available through the Services. Customers are responsible for restricting access to sexually explicit material on the Internet, by purchasing the appropriate filtering software, or by monitoring Internet use. Content questions or complaints should be addressed to the content provider.

7.0 Miscellaneous

7.1 False Pretenses. Users must not use VIKING Broadband to impersonate any person or use a fictitious user name with any of VIKING Broadband's services, including in any e-mail, Usenet posting, or Internet Relay Chat ("IRC") site. This restriction does not preclude the use of nicknames in IRC, the use of anonymous re-mailer services, or postings to any site that permits pseudonyms.

7.2 Unsolicited Advertising. Users must not use VIKING Broadband to post or transmit any unsolicited advertising, promotional materials or other forms of solicitation to any person except in those areas and on those websites that are designated for such a purpose.

7.3 Harassment, Threats and Abuse. Users must not use VIKING Broadband to harass, threaten, or abuse any person or group of people by any means.

8.0 Bandwidth/Network Traffic and Other Limitations

8.1 You must comply with the current bandwidth/network traffic, data storage and other limitations on the Services. Users must ensure that their activity does not improperly restrict, inhibit or degrade any other customer's use of the Services, nor represent (in the sole judgment of VIKING Broadband) an

unusually large burden on the network itself. The guidelines for Bandwidth/Network Traffic Usage/month for service is 50 Gigabytes for upload and download combined. Users exceeding the Bandwidth/Network Traffic amounts specified for their Service Package may be subject to service discontinuation. In addition, users must ensure that their activity does not improperly restrict, disrupt, inhibit, degrade or impede VIKING Broadband's ability to deliver the Services and monitor the Services, backbone, network nodes, and/or other network services. Customers may not resell, share, or otherwise distribute the Services or any portion thereof to any third party without the written consent of VIKING Broadband. For example, you cannot provide Internet access to others through a wireless or dial-up connection, host shell accounts over the Internet, provide email or news service, or send a news feed unless express permission is granted by the customer agreement. You may not provide network services to others via the VIKING Broadband.
